Some misunderstanding occurred, within three years, complete a single track to Columbia; and, also, that the State shall issue bonds to the amount of her stock, say \$640,000, payable in twenty years, and place said bonds at the disposal of the Company, which the Company appear disposed to accept in lieu of the cash instal. ments to the same amount, which the State can be called on to pay within three

Should these propositions meet a favorable issue it is confidently believed that their encouraging and chiering influence on the minds of the Stockholders, will be such, as to induce them, at any and every sacrifice, to pay up four instalments next year. On the other hand, should the application fail, why then, as far as I can judge from the "signs of the times," there will be a total failure and abandonement of the whole project -- a result as boundating an mor ifying, as the inception, was dazzling and magnatice at. A mountain labor without even producing a mouse!

THE BANK QUESTION.

From the Correspondence of the Charleston Mercury. Columbia, Dec 9, 1939.

The Senate is still accupied in discussing the Bank report of the Special Committee. Mr. Bennett spoke yesterd of in defence of the views set touth in the report and resoluthous, and expressed a wish that the whole matter may be fail on the table. Such a report he thought calculated to do infinite must be for the Bank, which had amply sustained a self-analyst the commercial embattassmeals of the country. He insisted that the Committee had transcended the duties which they were charged with. Mr. B. in his recourts had disclaimed all intenton of inputing improper anotives to the late Prescher of the Bank in the purchase of a new bucking burse. Mr. Ruett in his reply, and he had nothing to do with the intentions of gentlemen, e too the report as he found it, and if he understood English words nothing could be clearer than that an imputation was east upon the late President of the bank. The iten of requiring the bank of the State to egulate the currency of the State he regarded as visionary and impracticable, contending as it would have to do with all the monted corporations in the State, whose combined capital was equal to ten milions. Mr. Rhett spoke about an hour, and made one of his best efforts. The report and resolutions will not, it is thought receive the approbation of the S nate, and will be very strongly opposed in the House. Mr. Huger spoke also, and condended the report for its attack on Judge Colcock, although he could not be. lieve the Committee had any such intention. This mayter has occupied the Senate almost exclusively to other business.

Dec. 10 - - Mr. Benne t in the Senate today, moved that the R port and Resolutions of the Special Committee to examine the Bink, be referred back to the Committee with leave to amend the R por, which propossion was concurred in by the House .--This is considered a back out regularly.

N. RFOLK DEC. 4. Samuandulism and Narcow Escape!-A gendeman lodging at the Exchange Hotel, in the Britstory, rose from his bed on Thursday night, while in a profound sleep, raised the sash of the window, and threw himself out. He encountered a fall of twenty three feet, and was pitched head for most apon a flight of steps below. The noise of the fall awakened some of the serhim insensible; but on conveying him to his room, he soon recovered, and appeared to have received no other injury but the loss of a small lock of his hair with the skin attached. To give an idea of the force with which he fell, the step which he first struck (of plank inch 11-1 inch thick) was split en tirely across and separated. Yet we say bin the next morning walking about as fresh as if nothing had happened.

Richmon I. Dec. 4 .- The House of D. le gates passed to-day by a vote of eighty odd. to for y odd, on aves and no s, the bill for the temporary relation she Banks. The Bahks are authorized to discount all the 1st of March, 1840, and the suspension is leg. alized til that period.

Lunatic Asylum .- We gather from the report of the Regency of this just tution, at clumber, that the number of Lemanes in the Asylum, on the 5 h Nov 1838, was 47, and that up to the 4th Nov. 1839, the additional number received was -(Paupe's 8, pay Patients 17) 25-in all 72. Of these 10 were d scharged cared, 5 were removed by their friends, and 6 died, during the year. having in the distitution 51 patients, of whom 25 are pumpers and 26 are pay patients, 33 males and 18 females. The asylum continues to support itself and answer fully the purposes of its benevolent found ers -- its receipts for he year were \$11.226. 86 cts, its disbursements \$10, 657,95 cts -balance on hand \$568.91 cts. The management of Dc. W. Parker, the Saperintended, and of his subor finate officers, is highly commended. Char. Cour.

From the Correspondence of the Charleston

Courier. Washington, Dec. 7, 1839.

in my last, I aliaded to some slight dissatisfaction in the Administration ranks, proceeding from the late caucus nor nation of Speaker by that party. It had been urged by the New York and several of the Pennsylvania members, that some token of gratitude (if one may so call it) was due to the State Right's men, for coming forward to their assistance at the time the Subto their assistance at the time the Sub-Treasury Bill was I rought before Congress. For this reason if you will refer to your files. you will find that most of the leading Demoeratic Journa's have, for the past six months brought forward the claims of Mr. Pickens, in a very strong light, and it seemed to be a general understanding among the mass

however, owing to Mr. P's apathy in regard to the office of Speaker, and a disposition on the part of his friends, to keep him where his services would be more valuable, -on the floor as a Debater-for, by the way, there is none to lead the Administration forces at present, against the overpowering number of orators they have against them, save Mr. P .- and Mr. Lewis was taken up. But while this matter was in the ti-leof successful expriment, Mr Benton, the Senator from Missouri, is said to have stated, that esuch a man (meaning Nullifier) would not suit," and hence the choice of G n. Jones. The sore feelings thus erea. ted will have to be healed in some manner, as the State Rights' men express themselves free from committal, save on the single question of the Sub-Treasury. One thing is certain, if Mr. Dawson, of Geo. is run as the Whig candidate, he will carry more vot s than either Mr. Jon's or Mr. Rell. in. | Corn asmuch as much as the Nullifiers are bound | Iron, Pig. 199 lb 1 00 to vote for a companion in principles.

We shall have some hard words during the session, about Florida, as Mr. Benton cesterday give notice in the Senite, that ie would, as early as possible, introduce a bill for the armed occupation and settlement of such part of the country as is now infested by the Indians.

If I though the debates of the House were fany interest at present, I would readily form s'e you a synopsis, but they are of such s uncress of character, and all of them so far from the end in view, that they are as disagreeable to hear as to read.

The whole of this morning has been conimed in debiting a question, concerning the decision of the Chair, made yesterday. and in dispute 2 a part of the Journal which Speaker be would be every man within the bar vote, "unless otherwise directed." These three words called up some ten or a doz n members, each one having under stood them in a different sense, and most of the gentlemen professing to know more of the proceedings of the Char and Teller than these persons did themselves! Most glorious confusion prevails as usual; members are walking, talking and smoking all around the seats, bets on, and no 'ord r call adutes the ear to quell the buzzing thus nused.

HE subscriber has for gale a large number of Morus Multicaulis cuttings. In the qualities which give value for planting, viz: SIZE and MATURITY OF WOOD, they are believed not to be surpassed, perhaps not equalled by any others forsale in the United States. This is owing to the great distance allowed in planting as well as to suitable soil and good cultivation. Owing to the present scarcity of money, and the consequent depression in the price of every thing else, they are offered at a very reduced price. Persons wishing to purchase should apply early; because all not engaged are now offered in a distant market. Besides, if not sold before Spring the price may then be higher.
